

CONCEPT NOTE and AGENDA

ECOWAS Sustainable Energy Policy & Investment High Level Forum

Investment opportunities arising from the Sustainable Energy Country
Action Plans

West Africa Forum for Clean Energy Financing (WAFCEF)

Launch of the SE4ALL Network, Introduction of the Africa Clean Energy Corridor in ECOWAS, the IRENA Project and Financial Navigator and the Sustainable Energy Market Place in West Africa

Abidjan, Côte d'Ivoire Date: **14-18 September 2015**

This event is organized within the scope of

ECOWAS Sustainable Energy Policy & Investment High Level Forum

ECREEE Secretariat Achada Santo António C.P. 288, Praia, Cabo Verde Tel: (+238) 260 4630, (+238) 262 4608

www.ecreee.org

Please send your enquires to policy@ecreee.org

ECOWAS Sustainable Energy Policy & Investment High Level Forum

1. The Forum will feature

- Investment opportunities arising from the Sustainable Energy Country Action Plans (National Renewable Energy Action Plans (NREAPs), National Energy Efficiency Action Plans (NEEAPs), and Sustainable Energy For All (SE4ALL) Action Agendas of the ECOWAS Member States
- Multi-Stakeholder dialogue on ways to mobilize funds for the implementation of Sustainable Energy Country Action Plans
- Showcasing of ongoing Auctions/Call For Proposals and Feed-in-Tariffs (FiTs) Opportunities
- Showcasing of public and private sector financing instruments for project implementation
- Investment pitch presentations from Finalists of the second West African Forum for Clean Energy Financing (WAFCEF) Business Plan Competition and Award Ceremony
- Launch of the ECOWAS SE4ALL Network
- Launch of the Third Call of the ECOWAS Renewable Energy Facility
- Introduction of the Africa Clean Energy Corridor in ECOWAS
- Launch of the International Renewable Energy Agency (IRENA) Project and Financial Navigator and Sustainable Energy Market Place in West Africa.

2. Introduction

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE), the African Development Bank (AfDB), the Climate Technology Initiative - Private Financing Advisory Network (CTI-PFAN), the United Nations Industrial Development Organization (UNIDO), and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) are jointly organizing the "ECOWAS Sustainable Energy Policy and Investment High Level Forum" from 14th to 18th September 2015 in Abidjan, Côte d'Ivoire. The event is supported by the Government of Côte d'Ivoire, the Spanish Agency for International Development Cooperation (AECID), the Austrian Development Cooperation (ADC), the European Union (EU), the United States Agency for International Development (USAID), the Global Environmental Facility (GEF) and the International Renewable Energy Agency (IRENA)

The Forum will bring together **top-level policy and decision makers**, project promoters, investors and international partners to meet, discuss and explore relevant inter-linkages between enabling environment and project development and financing and identify concrete investment opportunities. It will facilitate match-making for investment ready projects and serve as a platform for the governments of the ECOWAS countries to present the RE, EE and energy access targets as well as the agreed policy measures included in their Sustainable Energy Country Action Plans. Furthermore, the event will provide a veritable platform for stakeholder dialogue on the required next steps to mitigate existing barriers to sustainable energy investments in the ECOWAS region.

Represented by a distinguished High Level Panel, the Forum will feature the recognition of the National Sustainable Energy Country Action Plans, the introduction of the IRENA Africa Clean Energy Corridor in ECOWAS, which calls for accelerated deployment and cross-border trade of renewable power, and the launch of the Network of ECOWAS SE4ALL Country Focal Points, which will take a strong role in coordinating the implementation of the SE4ALL Action Agendas in the Member States.

The IRENA Project and Financial Navigator and Sustainable Energy Market Place will also be launched in West Africa, which aims to make the overall renewable energy project development process more transparent, practical and explicit. The forum will also see the launch of ECREEE Business Advisory council, a body whose aim is to support ECREEE on business conditions particular to the RE & EE sector.

These initiatives will be coordinated by ECREEE and its partners and will provide major support to the ECOWAS Member States in realizing concrete projects to achieve the targets outlined in the National Sustainable Energy Action Plans and moreover in the ECOWAS RE and EE Policies and the SE4ALL Initiative.

Background

Although energy security and access are still major challenges for the West African region, major steps are being taken to improve the enabling environment and an increasing number of renewable energy and energy efficiency projects are being readied for investment. Over 7 GW of grid-connected power plants, driven by both public and private sector players, are currently under consideration or development, with several projects already at the stage of financial closure. At the same time, over 200 clean energy mini-grids are already operational, with more underway.

Private sector interest in these projects has intensified in recent times. Ten project promoters, finalists of the second **WAFCEF** competition, will present their investment opportunities during the forum. The projects were selected following a rigorous evaluation exercise of the last call for proposals which saw twenty projects being shortlisted. These projects have also been subjected to an intensive WAFCEF project development and preparation process and are now ready to be presented to potential investors.

The potential projects will be implemented in Burkina Faso, Mali, Côte d'Ivoire, Ghana, Nigeria and Senegal, as well as a regional project, based on green technologies such as biofuels, biomass, biogas, hydropower, solar, and waste-to-energy. Investment estimates range from USD 1,988,000 to USD 128,000,000 with promoters seeking equity and debt investment.

As sustainable energy projects continue to materialise, there is an urgent and continuing need to improve the policy, legal and regulatory environment to speed up the process and scale up the required investments.

In recent times, there have been promising sustainable energy developments in the ECOWAS region. The Authority of ECOWAS Heads of State and Government, in July 2013, renewed its commitment to the provision of access to sustainable energy services in West Africa by adopting two path-breaking policies - the ECOWAS Renewable Energy Policy (EREP), which aims to increase the share of renewable energy in the region's overall electricity mix to 35% in 2020 and 48% in 2030; and the ECOWAS Energy Efficiency Policy (EEEP), which aims to implement measures that would free 2000 MW of power generation capacity and in the long term, more than double the annual improvement in energy efficiency, compared to 2010 levels, so as to attain levels comparable to those of world leaders. The policies also include a broad range of measures to be implemented at regional and national levels. Based on a mandate by the ECOWAS authorities to coordinate the implementation of the regional policies as well the SE4ALL Initiative in West Africa, ECREEE is currently assisting the ECOWAS Member States to develop a coherent Sustainable Energy Country Action Plans. ECREEE has been cooperating closely on the SE4ALL implementation with the SE4ALL Africa Hub and further partners.

The 15 ECOWAS Member States are currently finalizing their respective Sustainable Energy Country Action Plans which aim to contribute towards the attainment of the regional targets by 2020 and 2030. The Action Plans include a national energy benchmark on the status quo, and will propose attainable targets based on national potential and socio-economic assessments. They also highlight concrete laws, incentives and measures to be implemented by each country to achieve the proposed targets.

4	Monday, 14 September 2015				
	Venue: Heden Golf Hotel Abidjan				
	Investment opportunities arising from the Sustainable Energy Country Action Plans				
08:30	Registration of participants				
	WELCOME SESSION				
09:00	Morlaye Bangoura, ECOWAS Commissioner for Energy and Mines				
	Alex Rugamba, Director for Energy, Environment and Climate Change, Africa Development Bank				
	Tobias Orischnig, Representative of the Austrian Development Cooperation Michael Dreyer, GIZ Country Director in Côte d'Ivoire				
	Alois Mhlanga, Representative of the United Nations Industrial Development Organisation, UNIDO				
	Andrew Haviland, Chargé d'Affaires of the US Embassy in Côte d'Ivoire				
	Jean-François Valette, Ambassador of the European Union in Côte d'Ivoire				
	Luis Prados, Ambassador of the Kingdom of Spain in Côte d'Ivoire				
	Fatoumata Thes, Deputy Director of Cabinet of the Minister for Petroleum and Energy, Côte d'Ivoire				
10:00	Group Picture - Coffee Break				
10:30	Election of Bureau				
	SESSION 1 – The ECOWAS Pathway to achieve Sustainable Energy for All				
10:50	The ECOWAS Pathway to Achieve the SE4ALL Targets Mahama Kappiah, Executive Director, ECREEE				
11:10	The Power of the SE4ALL Action Agenda and Investment Prospectus Daniel Schroth, SE4ALL Africa Hub				
	Coordinator				
	SESSION 2: Panel Discussion on Country Action Plans in the ECOWAS Member States				
11:30	Moderator: Ibrahim Soumaila, Energy Efficiency Expert, ECREEE Presentation of Sustainable Energy Country Action Plans by National Directors for Energy				
11.30	- Benin - Mahaman Sakariyou Director General for Energy				
	- Burkina Faso - Jean Paul Yanogo Director General for Energy				
	- Cabo Verde - Mario Oliveira Director of Services				
	 Côte d'Ivoire - NGORAN Konan Norbert Director for Energy Efficiency and Renewable Energy Guinea-Bissau - Biabe Siga Chief of Division 				
	Moderated Panel Discussion				
13:30	Lunch break				
	SESSION 3: Technical Assistance Support Instruments				
	Moderator: Cherif Seye, African Development Bank/SEFA Financial Advisor				
15:00	Bridging the Gap – Providing Technical Assistance for the Implementation of Action Plans, Cherif Seye, African Development Bank/SEFA Financial Advisor				
	EU Technical Assistance Facility, Georgios Grapsas, Policy officer, European Commission DG DEVCO				
	Accelerating the Transfer of Climate Technologies to Developing Countries; Alois Mhlanga, United Nations				
	Industrial Development Organisation, UNIDO/ Climate Technology Centre and Network (CTCN)				
	ECREEE/GIZ Technical Assistance Facility, Lucius Mayer-Tasch, Renewable Energy Adviser, GIZ/ECREEE				
	The Power Africa Toolkit: technical assistance resources, Katrina Pielli, Senior Energy Advisor, Beyond the				
	Grid- USAID Power Africa				
	Q & A				
16:30	Coffee Break				
SESSION 4: Regional Monitoring and Evaluation Framework					
17:00	Proposed Regional Monitoring and Reporting Framework for the National Action Plans and SE4ALL Action				
	A way doe 1 the short Floor Francis Daller Analyst FCDFFF				

Agendas, Hyacinth Elayo, Energy Policy Analyst, ECREEE

VENUE: Heden Golf Hotel Abidjan

Investment opportunities arising from the Sustainable Energy Country Action Plans/ WAFCEF Knowledge Sharing Exchange & Dialogue

	UC	

09:00

Welcome and Introduction of Day 3

Mahama Kappiah, Executive Director, ECREEE

Andrew Herscowitz, Power Africa Coordinator

SESSION 9: How governments are triggering investment in grid-connected renewable energy projects Moderator: Henning Wuester, Director, Knowledge, Policy and Finance, IRENA

09.30

Presentation: Increasing Importance of Competitive Bidding and Feed-in-tariffs in emerging and developing countries, Henning Wuester, Director, Knowledge, Policy and Finance, IRENA

Enabling environment/policy instruments for grid-connected RE in West Africa, Mahama Kappiah, Executive Director, ECREEE

Panelists

- Kwabena A. Otu-Danquah, Ag. Director for RE&EE at the Energy Commission, Ghana
- Faruk Yusuf Yabo, Assistant Director of Renewable Energy and Rural Power Access Department, Federal Ministry of Power, Nigeria
- Jean de Dieu Yameogo, Renewable Energies and Domestic Energies Director, Ministry of Energy and Mines, Burkina Faso
- Moustaph Baidy Ba, Head of Planning Department, SENELEC
- Paul-Francois Gauvin, General Manager France and West Africa, Scatec Solar
- Bruno Lopes, Chief Finance Officer, CABEÓLICA

Panel discussion and Q&A on government-driven processes to promote grid-connected investments

11:00

Coffee Break

SESSION 10: Available instruments for project preparatory activities and finance Moderator: Kwabena Boafo Adom-Opare, Programme Management Specialist (Clean Energy & Infrastructure), USAID

11:30

Regional Overview of Action Plans, Karin Reiss, Sustainable Energy Expert, ECREEE/UNIDO

ECREEE/GIZ Technical Assistance Facility for project preparatory activities, Mohamed Sokona, Renewable Energy Adviser, GIZ/ECREEE

ElectriFI Initiative, Georgios Grapsas, Policy officer, European Commission DG DEVCO

The Power Africa Toolkit: project preparation and finance resources, Sarah Bieber - Energy Officer, Beyond the Grid, USAID Power Africa

Project Facilitation Platform, Henning Wuester, Director, Knowledge, Policy and Finance, IRENA

Green Finance for Sustainable Development, Roger N'Guessan, SUNREF West Africa Coordinator

Q&A session

SESSION 11: Funding opportunities in the Energy Sector Moderator: Yussuf Uwamahoro, Energy Specialist, World Bank

12:30

Panel discussion:

- Momar Sow, Senior Energy Specialist, Islamic Development Bank (IsDB)
- Isabelle Van Grunderbeeck, West Africa Regional representative, European Investment Bank (EIB)
- Joao Sarmento Cunha, Chief Climate Finance Officer, African Development Bank (AfDB)
- Joseph Adelegan, Head of Division Environment and Sustainable Development, ECOWAS Bank for Investment and Development (EBID)
- Idrissa Karamoko, Risks Director, ORABANK

13:30

Lunch Break

SESSION 12: Triggering Investment in Clean-Energy Mini-Grids Moderator: Dean Cooper, UNEP, Representative of the SE4ALL HIO on Mini-Grids te: West African Clean Energy Mini-Grid Market: Current Situation and Perspectives

Keynote: West African Clean Energy Mini-Grid Market: Current Situation and Perspectives, Nicola Bugatti,
Sustainable Energy Expert, ECREEE

Keynote: Green Mini-Grid Market Development Programme, Daniel Schroth, SE4ALL Africa Hub Coordinator Panelists

- Malick Gaye, Private sector projects Director, Senegalese Rural Electrification Agency (ASER)
- Fousseyni Diarra, Head of the Renewable Energy Department, National Power Utility of Mali (EDM)
- Nico Peterschmidt, Managing Director, INENSUS
- Ifeanyi Orajaka, GVE Projects Ltd

Panel discussion and Q&A on CEMG Investment Promotion

16:00 Coffee Break

High LEVEL PANEL Chairperson: Morlaye Bangoura, ECOWAS Commissioner For Energy

16:30

This High Level Panel will feature the launch of key flagship initiatives which seek to drive the ECOWAS Sustainable Energy agenda to the next level and aim to mitigate existing barriers to sustainable energy investments in the ECOWAS region. The distinguished panelists will outline the impact of the respective initiative to the regions Sustainable Energy Agenda in order to achieve the targets outlined in the National Sustainable Energy Action Plans and moreover in the ECOWAS RE and EE Policies and the SE4ALL Initiative. The panel will also discuss and explore relevant inter-linkages between enabling environment and project development and financing and identify concrete investment opportunities.

Introductory Remarks by Mr Morlaye Bangoura, ECOWAS Commissioner For Energy & Mines

Introduction of the panelists and 7 min statements on the launches of the respective initiatives and their contribution to the regions sustainable Energy Agenda followed by a moderated discussion with all panelists:

- African Energy Leaders Group (AELG) in West Africa, African Development Bank
- ECREEE Business Advisory Council, Mahama Kappiah, Executive Director of ECREEE
- Africa Clean Energy Corridor in ECOWAS, Gurbuz Gonul, Acting Director of Country Support and Partnerships IRENA
- ElectriFI Initiative in West Africa, Roberto Ridolfi, Director of Sustainable Growth and Development, DG Development and Cooperation, European Union
- 3rd Call of the ECOWAS Renewable Energy Facility, Mr. Samba Bathily, Co-founder, Akon Lighting Africa
- Sustainable Energy for All (SE4ALL) Network, Morlaye Bangoura, ECOWAS Commissioner For Energy & Mines

Discussion

17:30 Intervention of the representative of Côte d'Ivoire

18:00 Press conference

The press conference of the Forum will take place directly after the High Level Panel with panelists and High Level Representatives from the opening session.

18:30 Cocktail- Golf Hotel Abidjan

	Thursday, 17 September 2015

VENUE: Heden Golf Hotel Abidjan

Africa Clean Energy Corridor in West Africa

	INTRODUCTION					
09:00	Introductory Remarks:					
	Gurbuz Gonul, Acting Director of Country Support and Partnerships, IRENA					
	Mahama Kappiah, Executive Director, ECREEE					
	SESSION 15: RENEWABLE ENERGY DEVELOPMENT IN WEST AFRICA					
	Moderator: Morlaye Bangoura, ECOWAS Commissioner for Energy					
09:15	Keynote presentation: Challenges and Opportunities to Accelerate Renewable Energy Deployment in West Africa					
	Panel Discussion:					
	- Bernard Hessou, Head of Planning, West African Power Pool (WAPP)					
	- Daniel Schroth, SE4ALL Africa HUB Coordinator, African Development Bank (AfDB)					
	Lucius Mayer-Tasch, Renewable Energy Adviser, Deutsche Gesellschaft für Internationale					
	Zusammenarbeit (GIZ)					
	- Representative of private sector TBC					
11:00	Coffee Break					
	SESSION 16: OVERVIEW OF THE AFRICA CLEAN ENERGY CORRIDOR (ACEC) CONCEPT AND IMPLEMENTATION STATUS					
11:15	Presentation: Africa Clean Energy Corridor, Gurbuz Gonul, Acting Director of Country Support and					
	Partnerships, IRENA					
	SESSION 17: LESSONS LEARNED FROM THE ACEC IMPLEMENTATION IN SOUTHERN AND EASTERN					
	AFRICASTATUS					
	Moderator: IRENA					
	Panel Discussion: Kudalawasha Ndhlukula, Basianal Flastvisity Basulatany Association of Southern Africa (BERA)					
	 Kudakwashe Ndhlukula, Regional Electricity Regulatory Association of Southern Africa (RERA) Kevin Leask, Chief Engineer, ESKOM, South Africa 					
12:20						
13:30	Lunch Break					
	SESSION 18: MOVING FROM RESOURCE POTENTIAL TO BANKABLE PROJECTS					
14:30	Presentations:					
	 Sustainable Energy Market Place and Project Navigator, Henning Wuester, Director, Knowledge, Policy and Finance, IRENA 					
	- Assessment of Renewable Energy Technical Potential in West Africa, Safiatou Alzouma Nouhou,					
	Regional Program Officer, Subsaharan Africa, IRENA					
	Panel Discussion					
	- Monojeet Pal, AfDB					
	- Representatives of IFIs TBC					
	- Development partners TBC					
	- Representative of private sector <i>TBC</i> SESSION 19: IDENTIFYING PRIORITIES FOR DEVELOPING A CLEAN ENERGY CORRIDOR IN WEST AFRICA					
	Moderator: IRENA					
16:00	Panel discussion					
	- Ifeyinwa Ikeonu, Acting Chairperson, ECOWAS Regional Electricity Regulatory Authority (ERERA)					
	- Mahama Kappiah, Executive Director, ECREEE					
	- Bernard Hessou, Head of Planning, West African Power Pool (WAPP)					
17:00	Conclusions and Way Forward					
	Gurbuz Gonul, Acting Director of Country Support and Partnerships, IRENA					
4=	Morlaye Bangoura, ECOWAS Commissioner for Energy					
17:30	Closure
